BMUC Preceptorship Brussels

Uro-oncology

Thursday 17 & Friday 18 September 2026

The Hoxton Brussels

The background of the entire page is a teal-colored microscopic image showing several cells with prominent nuclei and long, thin, radiating processes, resembling cancer cells or neurons.

Dear colleague,

We are pleased to extend an invitation to you for participating in the BMUC Preceptorship in Brussels, taking place on Thursday 17 & Friday 18 September 2026 at The Hoxton Brussels. This meeting on genitourinary cancers is organised by BMUC, UZ Brussels and AZ Groeninge Kortrijk, with the support of Astellas, Bayer, Ipsen, Johnson & Johnson and MSD.

The BMUC Preceptorship targets a small group of 25-30 young physicians from various disciplines including medical oncologists, urologists, radiation oncologists and other colleagues involved in uro-oncology. By combining state-of-the-art presentations and clinically relevant cases, it provides a platform for discussion, professional development, exchange of experiences and networking.

We are delighted to welcome an important number of national experts for this meeting. The highly interactive and dynamic nature of the meeting will contribute to a better management of our cancer patients.

We look forward welcoming you in Brussels for an exciting high-level meeting on 17 & 18 September 2026.

Siska Van Bruwaene

Chair

Scientific programme

THURSDAY 17 SEPTEMBER 2026

19:00 – 19:30	Registration and welcome
